4/4 SHUFFLE, written as 6/8 time dedicated to our GOD Who's FIRST, 18 June 2012

TEMPO: **120 BPM** (pu = 2)

Album: Amazing God 'n' Camp

“And if God cares so wonderfully for wildflowers... He will certainly care for you. Why do you have so little faith? So don't worry about these things, saying, 'What will we eat? What will we drink? What will we wear?' These things dominate the thoughts of unbelievers, but your heavenly Father already knows all your needs. Seek the Kingdom of God above all else, and live righteously, and he will give you everything you need.” -- Jesus, Matthew 6: 30-33 New Living Translation

This is a 4/4 SHUFFLE, but it's easier to read when **written as 6/8**. **ACTUAL TIME:**

Song Story: The Lyrics. This was written on Day 1 of a 14-day Christian music festival tour.... written during a rest break while I was setting up camp alone. And no, it actually is NOT autobiographical, because I've learned this lesson in the past years --- whatever you unpack has to get re-packed up! But I was having fun watching all the other campers decide that even primitive tent camping should have most of the comforts of home.... even old sofas, folding tables, food supplies for a month, firewood for an evening campfire to end the summer's 100+ degrees days (every day)..... And quite often the skies rang with "WHERE IS THE _____?!" amid all their camp clutter. I do pack extra twine and tent pegs and a tarp.... and every year, I end up loaning out those to people who remembered to bring the kitchen but forgot the camp essentials....

Song Story: The Music. When a new set of music loops arrived in the mail, I eagerly loaded them onto my computer and started playing.... After all, it IS called "PLAY music" --- not "WORK music"! And I assuredly had fun playing. I am very good on rhythm guitar, but my hands struggle to form lead guitar chords.... so the guitar loops folder was the first one I checked out, and these are among the first 5 loops I even listened to. So it seems to me that yet again, God's Holy Spirit was guiding me to find some pretty cool music for His songs... this is NOT "my style" of music skill even though I love this sound! And I suspect that Claxton who plays pop bass for my songs that need it (I specialize in slide bass) will be disappointed if he doesn't get to let loose with his funk bass skills on this one :)
