dedicated to our Father in Heaven, 14 August 2016
Album: Amazing **Creator 'n' Critters**
REF: 31-040

“By faith we understand that **the entire universe was formed at God’s command**, that what we now see did not come from anything that can be seen.” -- Hebrews 11:2 NLT

1

Butterflies in Heaven: Surely there will be.....
butterflies fluttering by on their delicate wings that
Creator God designed to
sprout from wormy bodies, to remind us, God's parable:
God designed GREATER BODIES for us who
honor and worship Him, who revere Creator LORD Yahweh!*

**pronounced YAW-way*

2

Dung beetles in Heaven: Surely there will be.....
dung beetles even though they're gross, on their very strong feet that
Creator God designed to
serve a cleaning job need AND remind us, God's parable:
God designed DIFF'RENT TALENTS for us to
honor and worship Him, by doing whatever is His will!

3

Little birds in Heaven: Surely there will be.....
Chickadees and sparrows cannot fall without God knowing. For
God's Son Jesus told us: God
knows when sparrows need Him. They remind us, God's parable:
God designed LITTLE SPARROWS for us to
comfort us with his Love. So we will learn to Trust in Him.

Song Story.

I got the inspiration for this song from the LORD while driving home from church... but did not have time to write it out when I got home. Usually I forget ideas if I don't write them right away.... but not this song's verses 1 and 3. I drove almost 200 miles, all the way to Ronks PA, with one daughter as our first step for a great week exploring Amish country. We got a motel room, and only then did I have time: And God helped me to remember and write out the lyrics into my journal 31. Five days later I finally had time to type up the song sheet into this music form.... and God gave me the idea for Verse 2 –

Dung beetles!
