Song Story. I got the inspiration for this song from the LORD while driving home from church... but did not have time to write it out when I got home. Usually I forget ideas if I don't write them right away.... but not this song's verses 1 and 3. I drove almost 200 miles, all the way to Ronks PA, with one daughter as our first step for a great week exploring Amish country. We got a motel room, and only then did I have time: And God helped me to remember and write out the lyrics into my journal 31. Five days later I finally had time to type up the song sheet into this music form.... and God gave me the idea for Verse 2, and a title change from pretty butterflies that more people appreciate – **Dung beetles!**
