VERSE 1

It takes more faith to believe in "Chance" than it takes to believe in PLANNED.
FAITH believes God simply spoke, and what He spoke HAPPENED.

"Chance" believes a Billion Billion Billion
improvements had to happen, evolve. And
Everything was an accident..... that happened with NO PLAN: *(By accident!)*

INTERLUDE READING DURING VERSE 1: Mark 13: 19 >>

JESUS combined speaking of the CREATION moment in time with the END OF TIME:

"For in those days there will be tribulation, such as has not been since the beginning of
the **creation which God created** until this time, nor ever shall be."

CHORUS

More faith is needed to reject math, to say odd things happened ***just by chance***
despite what statistical probability clearly shows:

Evidence of Plans. Romans One evidence of GOD.

Math equations for probability would NOT be ignored if looked at objectively. In
fact, scientists would be so excited by mathematical evidence of design!

Mark 13: 19 – YES, there IS a GOD!

=====

VERSE 2

It takes more faith to believe in "FATE" than it takes to believe in PLANS.
FATE believes you have NO HOPE. And what you do does not matter.

"Fate" believes a Billion Billion Billion
different things COULD have happened to you. And
Everything is beyond control by god or by YOU. *(Where's any hope?)*

INTERLUDE READING DURING VERSE 2: ROMANS 1:20 >>

"For since the creation of the world **His** invisible attributes are clearly seen, being
understood by the things that are made, even His eternal power & **Godhead**, so that
[PEOPLE] are withOUT excuse..."

CHORUS (optional)

IT TAKES MORE FAITH (to believe in “Chance”)

VERSE 3

It takes more faith to believe that Life just happened for NO REASON.

Evolution says – with NO evidence – that “Nothing” just became >>> WORLDS. ??????

Yet the Sun and moon are just the right distance to support LIFE. And different kinds of protection for birds different animals show creative PLANS.

INTERLUDE READING FOR VERSE 3

Look at one square acre of forest. Just one. Think of how many DIFFERENT NEST DESIGNS there are for birds, DIFFERENT SELF-DEFENSE protections for animal, different shades of GREEN there are..... all within **ONE** single square acre.

WHY? Absolutely no reason according to Evolution: Once a self-defense works, or a nest works, or a color shade works, there's NO REASON TO DEVELOP a different option..... Romans 1: All around us is Evidence of an ARTIST Creator God!

CHORUS (optional)

=====

VERSE 4

It is easy to believe in God – WHEN honestly looking.

Statistical chance gives evidence: It takes “Faith” to believe “Life Just Happened.”

Believe in a trillion trillion trillion chances that made ONE cell of LIFE surely requires MORE faith in Evolution than believing what the Bible shows:

A God's design!

CHORUS

More faith is needed to reject math, to say odd things happened **just by chance** despite what statistical probability clearly shows:

Evidence of Plans. Romans One evidence of GOD.

Math equations for probability would NOT be ignored if looked at objectively. In fact, scientists would be so excited by mathematical evidence of design!

Mark 13: 19 – YES, there IS a GOD!

=====

Song Story.

Written 3-1/2 years after I first drafted these basic lyrics, I'd set aside Journal 16 for awhile... The words were OK, but just did not seem to give God the Glory He deserves... Ephesians 3:21. During those three years I'd begun to research a lot of Biology & Astronomy evidences of how statistically **IMPROBABLE** were the *By-Chance* designs of **so** very many things... especially how wasteful Evolution would be.

Example: In the reading during Verse 3.
