

# ONE SINGLE CELL ON MARS © 2012 DianaDee Osborne page 1 of 2

## LYRICS

www.DianaDeeOsborneSongs.com CCLI pending.  
dedicated to the Father of ALL Human Cells, 14 November 2012  
Album: Amazing Savior 'n' Science

“Only **fools** say in their hearts, 'There is no God.' God looks down from heaven on the entire human race; he looks to see if anyone is truly wise, if anyone seeks God.”  
-- Psalm 53: 1a and 2, New Living Translation .

1

ONE SINGLE CELL on Mars is all it would take to  
excite us to think that life on Mars does exist!  
ONE single nucleus, in protoplasm would  
thrill us, fill us with HOPE that there's  
life on other planets.  
One single cell is enough to call  
LIFE there.

### CHORUS

One single cell on Mars, scientists call “life.”  
One body here on earth with heart cells and fingernails  
SEEN moving to pain..... cells SEEN by ultrasound.....  
cells moving ON THEIR OWN ---  
NOT .....called LIFE because on Earth.

2

MANY cells on Earth are called just plasm -- a not life --- a  
Child that's forming in the womb called NON-existent live.  
One fetus with any distinct types of cells is  
killed because it cannot yet take a  
breath outside his mother. Each  
growing child deserves life, NOT  
DEATH on Earth. [repeat CHORUS]

### Song Story.

I was extremely angry as I wrote these two verses into my journal -- about 5 minutes.  
And as I created all of the main music tracks within a couple of hours with  
God's Creative empowering. I had just learned that a Christ-following American  
company was being threatened with being forced to pay for employees to abort human  
lives in the future. WHEN the same **employees could easily obtain** Planned  
Parenthood type services for the same low cost without denying their employer the

right to their religious convictions.

As I prepared the music tracks only 3 weeks later, government officials were organizing plans to force every company to choose between closing or not being able to help any employees with full time hours or ANY benefits, to avoid choosing to kill unborn babies. As I talked with prayer partners about what we could do

-- **prayers with feet & hands** and not  
just words---

I remembered a poster that my friend Sarah had posted on her FACEBOOK. It asked a very logical question:

**“Why would a Bacteria be considered life on Mars...  
and a heartbeat NOT considered life on earth?”**

*(TheFullTimeGirl.com by LifeCanada).*

**Wikipedia's description of a single cell bacterium:**

“Bacteria, despite their simplicity, contain a well-developed cell structure which is responsible for many of their unique biological properties.”

*[http://en.wikipedia.org/wiki/Bacterial\\_cell\\_structure](http://en.wikipedia.org/wiki/Bacterial_cell_structure)*

**So why are many multiple TYPES of cells in a “fetus” -- unborn baby --  
NOT called Life? YES! We *must* have COMPASSION for & to help women who  
need to find homes for coming babies.  
BUT**

**Science canNOT ignore**

**logic**

**that's *inconvenient* --**

***even to show compassion.***

Next logical question:

**What does God want YOU to do about it?**

*James 1 verse 5, from God to you.*
