Song Story.

I get bored on the elliptical machine at the gym each hour, so I keep a legal pad, turn it sideways, draw 4 lines downward splitting it to 4 sections--- then sketch out songs that God puts in my mind. On this particular day, I had my large print Bible with me. With God's help, we had just recorded Psalm 98 Joyful Singing, so I remembered I'd written music for Psalms Psalms 96, 97, 98, 99, [101, I forgot about!], 102, and 103.

So God helped me quickly sketch out the words to Psalm 100. And dozens more, by His grace. **And the music?** Two weeks later, all music was written alone in the sanctuary for the verses, and writing music "in my head" without an instrument for the chorus. Shouting Joyfully at God's gifting: This is NOT my natural talent. He guided me to write the music in one day and publish it on the World Wide Web the next evening.
