“And we have seen and testify that the Father has sent the Son as Savior of the world. Whoever confesses that Jesus is the Son of God, God abides in him, and he in God.

16 And we have known and believed the love that God has for us. God is love, and he who abides in love abides in God, and God in him. Love has been perfected among us in this: that we may have boldness in the day of judgment; because as He is, so are we in this world. There is no fear in love; but perfect love casts out fear, because fear involves torment.

But he who fears has not been made perfect in love. We love Him because He first loved us.”

-- First John 4:16-19 KJV

Song Story

Inspired, of course, by my cat Jesse. I've NEVER done anything to hurt my little Maine Coon Cat... but sometimes she sees me and runs & hides for hours as if I beat her. It rather hurts my feelings after all the petting, grooming, sweet talking, & treats I give her.

I sat at the computer and typed this song's first two verses of lyrics in less than 10 minutes. When I wrote the music sheet a month later to begin preparing draft music, God not only led me to find First John 4 to fit the theme, but also guided me, within minutes, to fit it into the music. You probably are uncomfortable with strangers calling you friend, but yet you are... not only I but God dearly care about you, yourself. I did not write these words for you, my friend. I am by far no music genius... I tried to write songs for a couple of years before suddenly -- in 20 minutes -- the flow of songs began on 10 March 2008.

God your Friend prepared these words for you and guided the music, for you.

It's OK if you have doubts! That's great to analyze everything! Please just consider the possibilities of hidden realities.... God does not want mindless followers anymore than you would... that's annoying, meaningless. God wants you to use the mind He gave to you. But don't close it to the vast possibilities of His vastness, just as scientists do not close their thoughts to the possibilities that the weird thing of physics or chemistry or whatever might have hidden realities.... treasures of knowledge not yet unearthed.
